

Exciting News!

YES, it is **TRUE**, students in Mrs Duncan's Life Science 7 classes will be allowed to use their cell phones, iPads, or other tablets or devices that are mobile, and wi-fi friendly in class!

To keep learning exciting and fun, we will begin using Kahoot! a game-based learning platform to review science content. Its learning games ("kahoots") are multiple-choice quizzes that can be played using any mobile device over a wi-fi connection and even outside of class!

However, Kahoots are best played in a group setting, like a classroom. Players answer the questions on their own devices, as the questions are projected on the board. Data is stored and can be used by the teacher to assess comprehension and overall understanding of different topics, especially in Science!

For more information, please visit – www.kahoot.com

Parents, please contact me if you have any questions!
